WHAT is Super Memory?

Memory is about associating new ideas to something that you already know. For those who are unfamiliar with memory techniques, you will perform such linking in a very subconscious and unstructured way. When the associations are weak, the tendency is to remember some and forget some. When the links are strong, you can recall the details easily and quickly. What is it that makes the links strong and your memory super? They are the principles and techniques of memory. **These principles and techniques are the reasons why you have not been able to tap on the full potential of your memory in the past.** On top of that, you have to do it in a structured and orderly manner in order to retrieve the memory you stored using the super power memory techniques.

WHY should you learn Super Memory & have massive brain power? To create massive results and achieve better success quickly and efficiently, to have a faster career advancement and a better life.

Re-program & Re-charge Your BRAIN today with these tools ...

Brain Storming Outside the Box.

Learn how to maximize your creative mind based on existing knowledge and how to think outside the box. Eran's 'Invention Game' will demonstrate how easy it is to create new ideas by challenging old concepts. Develop a faster way of thinking to solve problems; quickly delete unwanted memories and create positive thoughts.

The Art of Paying Attention, being interested and developing organizing skills | Improve concentration and attention | Overcome memory blocks and eliminate distractions | The Art of Enthusiasm | The Basic Association System

Memory Magic . Advanced methods to remember daily tasks, information and presentations.

The Roman Room System | The Body System

Mastering the Ceremony. Learn how to remember and deliver eloquent speeches and anecdotes with ease and impress an audience without needing power points or technical accessories.

Super Memory for Names and Faces. To stand before a group in any setting and remember everyone's name immediately is a prerequisite for any successful executive. You will generate motivation and admiration among your clients, students, colleagues and friends by remembering faces and recalling names easily. Learn The Pinocchio Method | The Icon Method | The Napoleon Technique | The Twin Effect and more.

The Rain Man Maneuver. How to remember 40 digits in one minute – from the beginning to the end and from the end to the beginning! Eran will demonstrate the stunt and teach how to easily remember dates, formulas and numbers using the ancient system of Gematria.

Brain language. Learn any language in a month, talk without fear and double the speed you learn new vocabulary. Eran shares that you need only 600 words to understand 75.6% of any foreign newspaper. He will show you how to use a special technique to learn these words super fast!

ABOUT THE MEMORY MASTER, ERAN KATZ

Eran Katz is a Guinness Book of Records holder for the longest string of number memorised. Before a live audience, he demonstrates how he can recite the numbers after hearing them once. And on top of that, he can recite these numbers backward.

He is an eloquent speaker and teacher in the memory and intelligence sphere. Memory is a skill that can be trained and improves with practise, that is Eran's firm belief. About 200,000 people around the world have attended one of the 1700 entertaining lectures and seminars he has delivered

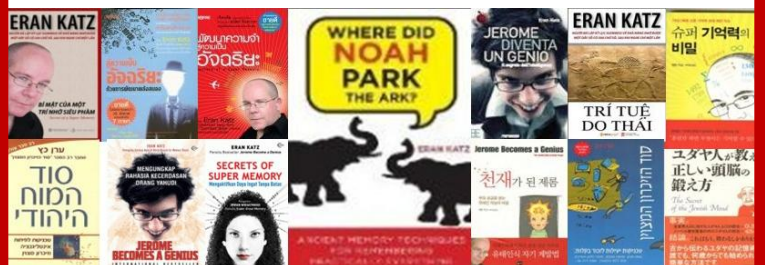

He has written several books on memory which have been translated into many languages. His new book "Where did Noah Park the Ark - is published by Random House in September 2010.

Presenting his book to HRH Princess Maha Chakri, daughter of the Thai King

He has delivered his lectures and seminars to hundreds of leading multinational companies and organizations worldwide. Among them are Motorola, IBM, Oracle, Microsoft, Nokia, General Electric, Coca-Cola, AT&T, Avis, The European Petrochemical Association, Singapore Government, Japan Opensense workshops, Thai Chamber of commerce and many more.

Eran Katz's books are being translated in 12 languages
